Kaylor Nurseries

Lakewood, Washington

CATALOG NO. 27 - SPRING 1941

**WE SALUTE YOU!
FROM A NEW LOCATION.**

Last year we moved our nursery from Blaine to a new location about fifteen miles north of Everett, Washington. Always glad to have folks drop in and see us. Here's a map showing you how to find us.

PERMIT NO. 16
Blaine, Wash.

FEB 21 1941
U. S. Department of Agriculture

Oh! What A Headache!

•
We have Moved.

It was a Year's job.

Desiring a location nearer the larger cities of the Puget Sound country, we, last spring, purchased a farm about fifteen miles north of Everett and moved our nursery from the former location at Blaine.

In the new location we have much the same type of soil as in the old; a deep, gravelly loam, subirrigated from lakes higher up on the hill. Of course it is on a hillside, with good air and water drainage, both important items in our line of work.

As all our customers know from past experience with us, our first thought has always been a quality product. In the new place we shall carry on with this ideal and any time any of our customers receive from us any plant or bulb which they may think is not up to this standard, we want to hear from them. We have had very few complaints during the fifteen years we have been trying to serve you.

Those of you who are close enough to visit the nursery will always find a welcome. Much in the way of improvement to grounds and buildings remains to be done, but there is always someone to show you the fields. We never use "High-pressure" salesmanship, never ask a visitor to buy, just visit. Postage and packing are items of expense that can be saved by customers who visit the nursery and make cash and carry purchases.

Please be sure your letter is addressed Lakewood and not Lakeview or some other name with the word lake in it.

BUSINESS TERMS

Read Before Ordering

All orders to go C. O. D. must be accompanied by an advance payment of 50c.

Remit by money order, draft or check. If currency and stamps are sent, they travel at customer's risk. Sometimes such remittances are lost in the mails.

We guarantee our stock to be as represented, but as many elements beyond our control enter into the production of crops, our responsibility ends when we have delivered shipments to transportation companies. If you are not satisfied when you receive the goods, send them back and get your money.

If you prefer to have your order come transportation charges collect, tell us and

we will put in more than enough stock to pay such charges. Lots of times we can send a much larger plant on charges collect orders than on those that are prepaid.

On all orders for \$1 or less, add 25c for sales tax, postage and packing.

Discounts: The old-time custom of adding extra bulbs or seeds to customer's orders oftentimes results in the purchaser receiving a gift of material they already have or do not care about. Under our discount plan you select your own extras and get material you really want. This discount is in addition to any extra count we may include where you order a good number of a variety. Here's how it works: You select \$3.00 worth of bulbs or plants and pay us \$2.75; \$4.00 worth and pay \$3.60; \$5.00 worth and pay \$4.40. On all orders of \$5.00 net or more select fifteen per cent in extra stock. No discount on collections. Try this out and you will find our prices as low as the price cutters—and quality is tops.

TIGRIDIAS

This interesting novelty comes from Mexico where it was once considered sacred food for the gods. Wide open, three-petaled flowers in combinations of red and yellow from July until frost. About a foot high with six inch flowers. Handle same as Glads, but do not cut the blossoms. They are strictly a landscape novelty.

Yellow or mixed kinds, 3 for 20c, ten for 50c.

CUT FLOWERS

Thruout the spring, summer and fall we always have cut flowers for sale at the nursery and will be glad to have those who live close enough to do so, to call when in need of decorations for weddings, funerals, Mother's Day, Decoration Day or other occasions. We do not make deliveries of cut flowers.

COLLECTIONS OF GLADS

These are made up of good standard and new sorts and are designed to give you lots of cut flowers at a low cost. By buying some of all three sizes and planting at the same time you can have loads of beautiful Glad spikes thru the summer and fall season. Every collection contains many kinds and in a wide range of colors.

Glad collection No. 1. Made up of large bulbs for early bloom. Fifty bulbs for \$1.25; 100 for \$2.60; 250 for \$6.00.

Glad Collection No. 2. Medium size bulbs. Fifty for \$1.10; 100 for \$1.90; 250 for \$4.50.

Glad Collection No. 3. Small bulbs for late bloom. Fifty for 65c; 100 for \$1.10; 250 for \$2.30. All collections postpaid.

Washington Customers, Please Add Sales Tax.

We Introduce Some New Glads

Perhaps we had better tell you our nursery stock is grown without "petting"—no extra fertilizing and no irrigating. We follow this system so as to give you plants and bulbs that can fight their own battles, can "take it" and still give good performance.

Our descriptions are written on performance under these conditions and if you have the time and inclination to give your garden some extra petting you will get larger flowers than we do under our field conditions.

Every year we test a number of the new and much publicized garden novelties. Some make good; others are discarded. If you do not find in this catalog the things you have read about, write and ask us why. We shall tell you.

Tah-lah-ne-ka

Quite a mouthful, this Indian word meaning yellow money or golden treasure, but we give it to a new golden glad with a feeling that it fits. Dr. C. M. Miller, Everett, Wash., is the originator and for the past four years we have been growing it under field conditions identical with those surrounding other top-notch yellow varieties. We have no hesitancy in saying that for all-around performance it tops the lot. Grows five feet tall. Flower head 26 inches, 22 buds, eight wide open florets in the field, florets $6\frac{1}{2} \times 5$ inches with position and texture almost perfect. Too deep for yellow, not quite deep enough for gold, just a bit deeper in throat but almost self color. Disease resistant, good propagator and florists take every spike they can get. Bulbs one inch and larger, \$2.00 each. No medium or smalls for sale this year.

Mt. Index

East of Everett stands Mt. Index, its tall, steep, snow covered spire pointing the way upward from the surrounding mountains of the Cascade range. This new white and gold glad, originated by Dr. C. M. Miller and developed by us, leads the way upward. A Maid of Orleans-Magna Blanca seedling it has the creamy-white color of The Maid, but in addition its throat is marked with a glowing golden feathered blotch. Heavier texture than The Maid and a little earlier, it blooms well from medium and small bulbs. Plant is more than five feet tall with a 26-inch flowerhead carrying 22 buds of which six will open in the field. Size $5\frac{1}{2} \times 6$ inches. Large bulbs, \$1.25; medium, \$1.00; smalls, 75c.

General List of Glads

Large bulbs (L) are from one and one-fourth to two inches in diameter. Mediums (M) are three-fourths to one inch and smalls (S) are about one-half inch. A planting of all three sizes, made at one time, will provide bloom from early to late. Our Assorted Tens are made up of all three sizes and sell at the same price as ten mediums of any given variety. Try them.

We sometimes have to substitute sizes, but never varieties unless your order comes late in the season. Order early and please remember no single item less than 10 cents and orders of \$1.00 or less carry a service charge of 25 cents extra.

Warning! No matter where your bulbs come from, whether you grow them yourself or buy them, save yourself a heartache by treating them before planting. Dissolve one ounce of Corrosive sublimate in a small quantity of hot water, add seven gallons of cold water and soak bulbs for ten hours. Plant while still wet. Or one teaspoonful of crude Carbolic Acid—Lysol or some other form—to one quart of water and soak eight hours. Both solutions are poison and should be kept at a temperature of about 70 degrees and in non-metal containers.

Prices—In all cases, 2, 5 or more mean that many of one and not several kinds. All varieties marked with a ♦ are priced as follows: Large, 2 for 12c, 5—25c, 10—45c, 25—90c, 100—\$2.75. Mediums, 5—15c, 20—50c. Small, 10—25c, 50—\$1.00. These prices include postage. For larger quantities and for shipment by express, write us for special prices.

Abe, Ellis. Tall light salmon. An earlier and improved Betty Nuthall. L. 2-20c, M, 2-15c; S, 4-20c.

Aflame, Horn. Long, pointed petals in begonia-rose. Large size.♦

Alayne, Ken. Medium tall, light rose-pink.♦

Albatros, Pf. An old one but still the best snow white.♦

Aldebaran, Kaylor. Large translucent light scarlet with cream throat.♦

Ardis, Johnson. After giving this a field trial we feel it is entitled to be called one of the best in its class. Ardis is an Icelandic word meaning early dawn or break of day. It tells the story of this tall, medium pink flower with its cream throat and break of day beauty. Plenty open on good stems and a good performer. L, 1-25c; M, 1-15c; S, 2-25c.

Bagdad, Pal. Tall smoky old-rose with wide open florets.♦

Beacon, Pal. Tall beacon-like spike of fiery red with a yellow throat.♦

Bertie Snow, M. One of the very best pinkish-lavenders. Tall with up to eight open.♦

Betty Nuthall, Sal. Late pinkish orange of large size.♦

Bit o' Heaven, Ch. Red-gold or orange decorative. L, 2-15c; M, 3-15c.

Bleeding Heart, B. White with brilliant red throat.♦

Brightsides, Prest. Yellow, orange and red miced up into a fine medium-sized flower.♦

Chiroco, Kaylor. This tall deep crimson is much admired by those who like dark red glads. It is a new and distinctive color. L, 1-15c, 5-50c; M, 2-20c, 10-60c; S, 5-20c, 10-35c.

Coral Strand, E. Medium size cream, delicately tinted pink.♦

Comdr. Koehl, Pf. Medium dark red of large size.♦

Dragonette, Kaylor. New miniature type resembling an over-grown snapdragon with yellow and pink combined into a beautiful flower. L, 1-15c, 5-50c, 10-90c; M, 2-20c, 10-60c; S, 5-20c, 10-35c.

Debonaire, Pal. Very tall creamy-pink tinted a deeper shade. Very fine cut flower.♦

Colonial Maid, Young. A new one with us last summer and it performed so well that we recommend it to those who like a tall, well-balanced spike of large flowers in a delicate shade of lavender, with a touch of pink. There is a carmine feathered arrow deep in the throat. L, 1-30c, 3-75c; M, 1-20c, 3-50c; S, 1-15c, 5-50c.

Early Rose, Jack. Voted the most popular glad in the Everett show last summer, this bright rose pink with a lighter throat is in demand all over the country. Very early.♦

Emeline Manning, Kaylor. Tall willowy stems. A cup-shaped medium yellow with pink tints on the reverse side. A fine bouquet flower.♦

Euides, Er. White tinted lavender-pink, An Australian of large size and many open.♦

Fortune, Br. This new deep pink with a light touch of salmon, and a brilliant red line in the throat is a fine one. Very tall with up to eight six-inch florets open at once it attracts notice. L, 1-30c, 2-50c; M, 1-20c, 3-50c, 10-\$1.25; S, 2-25c, 10-80c.

Golden Chimes, E. A fine golden yellow of large size.♦

Harvest Moon, Jack. Another of those tall, deep yellow boys that appeal.♦

Helen Maurine, Miller. Early, tall, creamy-light salmon or warm flesh color. L, 1-25c, 5-\$1.00; M, 1-20c, 5-80c; S, 5-60c.

J. S. Bach, Pf. One of the tallest and largest of the medium red sorts. Many open.♦

Jalna, Pal. Very large smoky-salmon.♦

John Virgil, Kaylor. Medium tall deep purple, will open 14 at one time.♦

Kulshan, Kaylor. Wherever this has been given a trial it has been admired. Tall, strong stem with up to eight open, cup-shaped florets in medium purple with small cream spot in the throat. L, 1-15c, 5-65c, 10-\$1.10; M, 2-25c, 5-45c, 10-75c; S, 2-15c, 10-30c.

Leschi, Kaylor. This deep purplish-red flower is now grown in almost every country where glads form part of the garden scene. Medium tall, up to eight open, and they are wide open, with heavy texture it has many prizes on its belt.♦

Komiri, Burns. Big New Zealand light lanveder with some light pink edging and a cream throat. New. L, \$1.00; M, 60c; S, 40c.

Lucifer, Er. A group of these in full bloom is just about the showiest spot you ever saw. Very large and tall, deep burnt orange with a large, deep crimson throat.♦

Maj. Edw. Bowes, St. Tall, light salmon overlaid pink.♦

Mary Elizabeth, Sv. Medium size, heavily ruffled white with a yellow throat, tall spike.♦

Maid of Orleans, Pf. Reliable milk-white of fine quality.♦

Maid of Honor, Ken. As grown in our fields this is about the finest and earliest light pink we have found. Very strong grower, about six open on medium tall strong stem. Very light pink tinted a shade deeper pink. Florists took every spike we grew last summer and wanted more. L, 1-12c, 3-30c, 10-85c; M, 2-15c, 10-55c; S, 10-40c.

Margaret Fulton, Og. As sure to grow a fine spike as you are to plant it. Deep cup flowers in a deep salmon pink.♦

Mauve Magic, Ar. Medium tall, plenty open in mauve.♦

Mac, Both. Giant New Zealand orange-scarlet, so large and heavy it needs staking. L, 1-25c; M, 1-15c.

Mary Demaries, St. Medium yellow, translucent, an almost perfect spike, medium tall, with up to eight large florets open. L, 1-30c; M, 1-20c; S, 1-15c.

Margaret Peter, Er. Early white with a deep red blotch.♦

Manu, Burns. New deep salmon-pink, red throat. L, 1-\$1.00.

Mibloom. Very early white with light red throat.♦

Minuet, C. Finest low-priced lavender.♦

Miss Pocatello, Kaylor. Tall, medium sized orange, lavender edges.♦

Miss New Zealand, Jul. Very large rose pink, carmine throat.♦

Mother Machree, Stv. Large smoky-lavender.♦

Olive Marie Brown, Phl. Small apricot-orange, many open.♦

Orange Sovereign, Steves. Perhaps the best medium orange on the market.♦

Paradise, Pru. Large buff-apricot.♦

Phar Lap, Burns. A large New Zealander in pink with lavender shades and a cream throat. L, 1-\$1.00; M, 1-75c; S, 1-50c.

Pelegrina, Pf. Darkest and most reliable of the so-called blues.♦

Picardy, Pal. Most popular of light salmon pinks.♦

Prairie Gold, Cor. Long stem, medium size, very deep red gold.♦

Puck, Kaylor. Ripe orange, long recurved petals. A vase of these, with a few whites, makes a table decoration that is not too tall. L, 2-15c, 6-50c; M, 3-15c, 6-25c; S, 10-50c.

Queen of Breman, Zim. The finest of the small lavender sorts.♦

Rapture, Pal. One of the tallest and best of the light salmon pinks. Rather late.♦

Red Lory, Er. Tall with many medium red flowers open. Purplish red throat.♦

Red Phipps, Briggs. Bright light scarlet, medium tall and very good.♦

Retah Schell, Kaylor. Many times a prize winner when grown on Puget Sound. Tall, up to 16 salmon-pink florets open on strong spike.♦

Robert Brownlee, Kaylor. Novelty glad. Yellow background overlaid purple. Medium size.♦

Rosemarie Pfitzer, Pf. Not always reliable but it can produce about as fine spikes as one ever saw. Cream-white tinted pink.♦

Royal Pledge, Kaylor. Striking medium red with a golden throat sprinkled with rubies. Tall, wiry stem.♦

Rewi Fallu, Fallu. Deep crimson with almost black flecking. Florets are so large it will have to be staked. L, 2-15c; M, 3-15c.

Remembrance, Burns. New Zealand sends this new and large lavender with pink throat. Wide open florets with eight open. L, 1-\$1.00; M, 1-75c.

Royal York, Pal. We like this better than Rewi Fallu. Stronger and better grower with plenty of deep red florets open. L, 2-15c; M, 3-15c.

Shirley Temple, Pr. Some folks say this is temperamental but it has always given us fine, tall spikes with good placement. Very ruffled cream.♦

Sonatine, Pf. Tall, light salmon flecked deeper pink.♦

Sunset Cloud, Steves. Very large, light pink outer petals with deeper cloud. Reliable.♦

Sahara, Pal. Distinctive. Russet or light brown with touch of red in throat L, 1-20c; M, 1-15c; S, 2-20c.

Summer Breeze, Br. Even without its delightful orange fragrance this is a fine, medium sized pink glad. Fragrance not always pronounced. L, 1-75c; M, 1-50c; S, 1-35c.

Takina, Burns. Very large purple with red shadows. Tall grower of distinctive color. L, 2-15c, 5-50c; M, 3-15c; S, 4-15c.

Thunderbird, Kaylor. We believe this new (1940) glad is the darkest red in existence. It is almost black, velvety and with very heavy texture. Tall grower with eight open but so heavy that the stem sometimes bends, so best to stake it. Rather late bloomer and has missed our shows. If you like them dark, try Thunderbird. L, 1-50c, 3-\$1.00; M, 1-35c, 3-75c; S, 1-25c, 3-50c.

Vagabond Prince, Pal. Another glad with individuality. Tall, large, light tbrown with brilliant red throat.♦

Valeria, Pr. Almost a self color. Scarlet with ruffles. L, 1-15c, 4-50c; M, 2-15c; S, 4-15c.

Vienna Woods, Ch. This is the most reliable of the blues. Deep purplish-blue of good size.♦

Yakima Apricot, Kaylor. Michigan cut flower growers buy this for commercial purposes in such quantity that our stock is always limited. Medium size on fine stem. A rich orange - apricot with lighter throat. Very early.♦

Yellow Emperor, El. Reliable medium size and medium color yellow. It glows and florists like it.♦

Perennials Provide Permanent Production

They are the backbone of the garden so be careful in selecting a location. Good garden soil, but do not feed too heavily, especially with manure. They like leafmold.

Our plants are strong, blooming size and are guaranteed to reach you in growing condition. Three of any one kind at two and one-half the single plant price.

Achillea, The Pearl. Numerous half-inch white rosettes on 18-inch stems. Spreading plant. 20c.

Achillea, Millefolium Roseum. Finely cut deep green foliage. Rosy pink flowers from June until frost. 20c.

Artemisia, Silver King. Silvery grey "Ghost Plant" two feet tall. Good filler. 20c.

Astilbe, Peach Blossom. Pink and light pink plumes on 18-inch stems over a long season. 20c.

Armeria. Tufts of deep green, spreading, with many deep pink ball-like flowers in spring. 20c.

Aster, Constance. Fine dwarf border plant with many bright pink flowers. 20c.

Aster, Victor. Dwarf with blue flowers. 20c.

Aster, Michaelmas Daisy. Four feet tall, late bloomer with heavy crops of lavender-blue flowers. 20c.

Anemone, Japonica Rubra. Rosy-red, yellow stamens, long season bloomer. 20c.

Anemone, Queen Charlotte. Semi-double light pink of large size. 30c.

Anemone, Hupehensis. Dwarf form in mauve-rose. Profuse bloomer continuing until hard freezing weather. 20c.

Carpathian Harebell. Hundreds of cup-shaped blue flowers on ten-inch stems growing out of a spreading tuft of cut-leaved green. 20c.

Columbine. Rocky Mountain. The true strain producing large blue flowers with lighter colored cups. Medium tall. 25c.

Columbine, Kaylor's Blue Beauty. A true perennial of our own development. Large bushy plants bearing hundreds of long-spurred lavender-blue flowers with snow-white cups. The largest Columbine we have ever seen and the most prolific bloomer. 35c.

Dicentra. Old-time Bleeding Heart. 25c.

Edelweis. Leaves, as well as star-like flowers, of a woolly-grey color. True Alpine. 25c.

Eryngium. Sea Holly. Thirty-inch branching stems bearing many thistle-like blue and grey-blue flowers. A fine filler for bouquets. 25c.

Gypsohila, Bristol Fairy. The double Baby's Breath. 40c.

Gypsophila, Oldhamiania. New late-flowering Baby Breath in pink. Sometimes does not bloom first year after moving. 35c.

Geum—Mrs. Bradshaw. Large double firey-red flowers on long stems. 25c.

Geum—Lady Stratheden. Same fine quality but a rich gold color. 25c.

Heuchera—Coral Bells. The low-growing tufts of broad reddish-green leaves form a fine rock—or border plant. Flowers are many small bells on long stems, good for cutting. We have both pink and red, state which. 25c.

Incarvillea, Hardy Gloxinia. A most beautiful and interesting perennial. Gloxinia-like trumpets in rosy-purple start opening low on the ground and the stems grow so rapidly that by the time they are fully open they are more than two feet tall. 25c.

Lupins. After watching performance of a much-advertised strain of these we believe we like ours better. Tall spires in many shades blooming over a long season. Assorted colors. 20c.

Liatris, Gayfeather. Tall growing stems that have the peculiar habit of commencing to bloom at the top and working down the long flower-head. Clusters of lavender florets with long stamens. 35c.

Peruvian Lily. Not a lily but a bushy plant producing hundreds of cup-shaped golden flowers, sprinkled brownish. Long season. 30c.

Primulas. Some years ago we sent to England for seed of the true English Cow-slip. Gradually we have worked up stocks of three fine ones. There is an early crimson with a gold center, a very dark red, also gold center, and a golden yellow. They are profuse bloomers with good stems and soft

light green foliage. Either color 25c, or one plant of each 65c.

Phlox—Ethel Pritchard. Fine mauve, not as strong grower as some kinds but beautiful flowers. 35c.

Phlox—Gefion. Medium tall, large red and white. 25c.

Phlox—Gen. Petain. Very large deep red. 30c.

Phlox—Miss Lingard. Tall strong grower making a large plant with hundreds of large white flowers. 25c.

Phlox—Rose Gem. Medium size flower heads in a fine light rose. 25c.

Phlox—Rosalind. Taller and deeper colored than Rose Gem. 25c.

Phlox—Rising Sun. Large white with red center. 25c.

Phlox—Fuerbrand. Firebrand. Good name for this large firey red. 30c.

Poppy—Oriental. Lilyan. This is one of our own breeding. A fine soft pink with an immense black ball in the throat. 25c.

Poppy—Wurtenbergia. An old one but just about the best of the dark scarlet kinds. 25c.

Scabiosa. Several years ago an unusually fine lavender flower was found in a planting of seedling Scabiosas. From this one plant we have built a stock and now offer plants for sale. Long stems, full double flowers in a beautiful shade of lavender. 30c.

Spirea—Ulmaria. Tall plant of spreading habit with many double cockscombs-like flowers in cream. 20c.

Statice—Sea Lavender. Low growing with heads of purplish-blue feathery flowers that may be cut and used in dried winter bouquets. 30c.

Thalictrum—Glaucum. Its fern-like foliage is fine as bouquet filler. Heads of small pale yellow flowers. 25c.

Trollius—Globe Flower. Lots of gardeners are overlooking a fine thing here. Grows to two feet, produces golden globe-shaped flowers all through the summer. 30c.

Valeriana—Garden Heliotrope. Tall plant with white fragrant flowers. 20c.

Yucca—Spanish Bayonet. Evergreen leaves. Tall spire-like stems producing many large, pendant cream-white flowers. 25c, 50c, and \$1.00, according to size.

KAYLOR'S DOUBLE PYRETHRUMS.

This very popular and always useful perennial has a special attraction for our hybridist. Some fifteen years ago we began developing a strain of double flowered plants and this year, for the first time, offer them to our customers. Pyrethrums do well in any garden soil that is not too rich. They are hardy perennials and produce large fully double, fine petaled flowers on long stems in May and June. The plants we offer are blooming size and may be left in the ground for several years before divid-

ing. Prices: single plants 35c, or one each of the four kinds for \$1.25. Order early.

P. Purity. Double white resembling a fine petaled 'Mum.

P. Patricia. Double light pink tint.

P. Phyllis. Double American Beauty shade with fine white tipped petals in center.

P. Pauline. Double red with some golden petals in center.

Chrysanthemums

They supply the gorgeous color to the garden in the fall. We are proud of the varieties we list. They have been tested for several years and found hardy and thoroly satisfactory under Puget Sound conditions. Many of these are the new English kinds, considerably larger than the old reliable hardy sorts which still have a place to fill in our gardens.

We supply only well-rooted plants that will bloom the first year and grow into large clumps for next season. Unless otherwise noted, prices are 20c per single plant, three of one kind for 50c, eight of a kind for \$1.00.

Alice Howell. Oct. Golden-bronze, semi-double 3½-inch flowers.

Angello. Late. Fine pink, cream tipped. Large.

Appollo. Kor. M. E. Semi-double golden-rose.

Arctic Circle. M. E. Full, rounded white, cream tints. 40c.

Azaleamum, Amelia. Early. Pincushion pink. Fine 18-inch tall border plant. Heavy producer, medium size.

Azaleamum, Bronze Cushion. Same as Amelia except in bronze color.

Barbara Cumming. Early. Tall, double yellow.

Brick. M. L. Many medium-size red flowers.

Bronze Buttercup. Early. Incurved petals. Outer gold, inner bronze. Very large flower. 40c.

Ceres. Kor. Copper-gold, three inch single.

Cranfordia Red. E. Bronze-orange and red. Twilled petals.

Daphne. Kor. Gold buttons with long old-rose and pink petals.

Don Bradman. E. Five-inch incurved pink, center tipped gold, outer ends silvered. 40c.

Champlain. M. E. Erect plant, hundreds of deep pink pompons.

Early Bronze. E. Medium tall, bushy plant. Heavy producer of golden-bronze pompons.

Erma Linda. M. L. Tall, many tight pompons with twilled petals in deep pink.

Gold Standard, E. Five-inch, full, incurved deep gold.

Golden Security. Not so early as Gold Standard. More bushy plant.

H. Sutcliff. Early August finds this pro-

ducing many long-stemmed five-inch incurved golden flowers.

Mars, Kor. Single wine red and yellow.

Mercury, Kor. Single red-bronze and yellow.

Mrs. Cal. Coolidge, L. Semi-double, fine red color.

Patricia Grace, M. E. Six-inch pinkish-lavender. Petals are narrow like a cactus dahlia.

Pink Normandy, M. L. Standard pink, a heavy producer.

Pink Profusion, M. E. Double pink of fine form.

R. Marion Haton, M. L. Semi-double medium yellow.

Snoflake, E. Large, full double flowers in creamy-white.

Vivid, M. E. Long-petaled, semi-double American Beauty color. A fine performer.

Yellow Dot, L. Tight little yellow pompon with a red center.

FALL BULB CATALOG

We grow large numbers of Tulip, Hyacinth and other fall-planted bulbs and issue a price list along about August 1. Glad to send it to you.

SOMETHING EXTRA

This business grows by the friends it makes, so when you send in your order send along the names of any flower growing friends and we will be glad to send them catalogs. In return for the names we will add bulbs or perennials—state which—to your order. Please be sure the names and addresses are correct and of flower fans who are active.

PAUL BUNYON PUMPKIN

This pumpkin showed up in a neighbor's garden at Blaine several years ago. No one seems to know where it came from so we have given it a name. Like the famous Paul, it is a big baby. A rich orange in color, looks something like the small Sugar pumpkin and has the same fine quality but produces far heavier crops. Packet of seed, 10c.
